Yasmine Dellal
Software engineer

I hold a Master's degree in Software engineeringfrom University Of Science and technology Houari Boumediene , where I gained a strong foundation in programming, algorithms, and software development. With 1 year and half of experience in the IT industry, I've had the privilege to work with diverse teams on projects ranging from web applications to data analysis. My roles have encompassed software engineering, Database Administration, project management and web development , contributing to my adaptability and problem-solving skills."
